

IBD Registry

Information
for
Patients

THIS HOSPITAL IS TAKING PART IN THE UK IBD REGISTRY

The IBD Registry collects information about patients who have Inflammatory Bowel Disease (IBD) to:

- Help hospitals improve their service
- Improve our understanding of how IBD affects people
- Support research into IBD

What does it mean for me as a patient?

Some information about you and your IBD will be sent to the IBD Registry. A system has been put in place to protect your confidentiality and you can read about this in the IBD Registry Information Leaflet.

The information collected will help to improve patient care, but if you do not want your information to be used then it is your right to opt out. Please speak to your IBD doctor or nurse if you have any questions or you want

to opt out. You can also opt out by emailing the IBD Registry. Opting out will not affect your treatment in any way.

Please ask a member of staff for an information leaflet or you can obtain one from our website at www.ibdregistry.org.uk

IBD Registry
British Society of Gastroenterology,
