

Top Tips	
Because of the variety of browsers in use, it is better to select a choice from a drop down menu by mouse click rather than by cursor arrow and tab keys	
Depending on browser in use, the text on the tabs may be less distinct than before. To revert to the previous text, whilst on the Web Tool login page, press the Ctrl and F5 buttons at the same time just once	
If the page you are entering information on appears to 'stall', click once in a blank area of the page and then resume entering data	

Registration Page	
Ethnicity	A new non-mandatory field to capture a patient's ethnic group
NHS Number validation	Shows a X , but still saves, if the number is not valid (does not work for CHI numbers yet)
Disease characteristics	Can now be entered on this page. NB records these details with TODAY's date

Patient Clinical Record Page	
Demographics sub tab	NHS number validation also displayed here
	Ethnicity field also available her to update existing patients

Patient Clinical Record Page	
Pharmacovigilance tab	For sites participating in pharmacovigilance projects this tab enables access to PV pages

Biologics Review Tab	
Initiation of New Biologics	Now has a column showing if a patient's biologic treatment is being followed in a PV project

Medications	
Add Medication page	Now warns, but still saves, if dose, units, frequency are not entered

Worklists	
Worklists tab	Now has a submenu to select worklists specifically related to PV projects
