

Join the Registry online to explore our data in detail and see how it can benefit people with IBD.

17.00

Prof Stuart Bloom,
Medical Director

Jeremy Thorpe,
Managing Director,
Tillotts Pharma UK

Welcome and introduction

Our unique dataset, and what makes it special. Recent achievements and what's coming next: complementary data collection from patients and clinical teams. Our collaborative ethos, and our successful partnerships with industry. Working together for patient benefit.

17.20

Dr Fraser Cummings,
Clinical Lead for
Studies & Collaboration

Putting the data to work - supporting clinicians

Supporting improvements in clinical care; bringing datasets together to improve patient care. Responsive solutions with benefits for patients and clinical teams.

17.45

Dr Keith Bodger,
Clinical Academic Lead

All about our data - a look 'under the hood'

Understanding the quality and utility of our data, and our data sources. How we curate and check our data, and our health data analysis expertise.

18.15

Dr Nick Kennedy,
Clinical Technical Lead

From data to knowledge - enabling studies and research

Transforming into a research database: datasets, research in progress and data linkage. How to request a data-related project. Patient involvement in research and transparency.

18.40

Liz Dobson, CEO

Partnering with the Registry

Delivering a bespoke analysis service for appraisals, market reports, project solution and feasibility studies. Partner with us to build for the future.
