Data Category	Data Item Name	Data Item Code	Data Item Description	Data Type	Status
PROVENANCE	Data capture tool	IBD300	This identifies the tool in which the data was captured, whether a clinical tool or a patient-facing tool (including eConsent tools)	String (Allocated)	
PROVENANCE	Data capture tool version	IBD301	This identifies the version of the tool where the data was captured.	String (Allocated)	
PROVENANCE	Datestamp submitted to Registry	IBD302	Automatic datestamp of when the extract file is created at the Trust site. Optional, allowed for here for Trust audit dataflow	DateTime	
PROVENANCE	Datestamp received by Registry	IBD303	Automatic datestamp of when the extract file is received by the Registry. Note: This is not a submission field - it is added by the Registry.	DateTime	
PROVENANCE	Submitting user	IBD304	The user who submitted the file.	String	
PROVENANCE	Submitting Trust	IBD306	The name of the submitting Trust as arriving on our landing platform	N/A	
PROVENANCE	Dataset	IBD399	This is the IBD Registry code for the dataset in use	String (Allocated)	
PROVENANCE	Local unit code	IBD13	To distinguish between hospitals within one Trust or between paediatric and adult IBD teams in a hospital	String (Allocated)	
PROVENANCE	IBD Audit code	IBD14	This is the IBD code used for a site/Trust as assigned by the IBD Registry	String (Allocated)	
PATIENT: Identifiers	NHS Number	IBD01	The unique identifier for a patient within the NHS in England and Wales, Community Health Index (CHI) number in Scotland, HCN (number) in Northern Ireland. This is a key identifier (as per NHS Digital), and is also used for NHS, hospital and GP data exchange	Long or String	
PATIENT: Identifiers	Date of birth	IBD02	The date of birth of the patient. This is a key identifier (as per NHS Digital), and is also used for NHS, hospital and GP data exchange	Date	
PATIENT: Contact items	Gender	IBD03	Gender	List	Deprecated
PATIENT: Identifiers	Postcode	IBD04	Postcode of patient's usual place of residence. This is a key identifier (as per NHS Digital).	String	
PATIENT: Contact items	Preferred name	IBD309	The name the person participating wishes to be known by	String	
PATIENT: Contact items	Given name	IBD310	The name given to the person, also known as first name. To enable contact with patient by name and patient validation.	String	

IBD Registry

Data Category	Data Item Name	Data Item Code	Data Item Description	Data Type	Status
PATIENT: Contact items	Family name	IBD311	The family name of the person, also known as surname or last name. To enable contact with patient by name and patient validation.	String	
PATIENT: Contact items	Email address	IBD312	Email address of the patient, to enable contact with patient.	String	
PATIENT: Contact items	Mobile phone number	IBD313	To enable contact with the patient and patient validation.	String	
PATIENT: Contact items	Telephone number	IBD314	To enable contact with the patient when no email/mobile number and patient validation.	String	
PATIENT: Contact items	Address x4 items	IBD315	To enable contact with the patient where not email (paper form) and patient validation.	String	
PATIENT: Contact items	Preferred contact method	IBD316	Where more than one contact method has been given, the preference indicator. This allows for future refinement (e.g.mobiles may be more commonly used than emails)	List	
PATIENT: Demographics	Sex at birth	IBD317	Sex at birth (may be different from how the patient wishes to identify themselves). (see also Gender IBD03)	List	
PATIENT: Demographics	Date of death	IBD06	The date on which a person died or is officially deemed to have died	Date	
PATIENT: Demographics	Ethnicity	IBD07A	The ethnicity of a person, as specified by the person	List	
PATIENT: Care	IBD care current provider type	IBD318	Allows the patient/person with IBD to identify their main care provider	Multi-select	
PATIENT: Care	Site providing current IBD care	IBD319	The name (code) of the site as identified by the patient on their consent form as providing their current IBD care	List	
PATIENT: Care	Adult or paediatric service patient	IBD22	Whether the patient is being seen in a paediatric or adult IBD service	List	Deprecated
PATIENT: Care	Date of transition to adult care	IBD320	The date that the paediatric patient transitioned to adult care	Date	
PATIENT: Care	GP practice code	IBD05	The identifier of the registered GP practice	String	
PATIENT: Health related	Smoking status	IBD38	Latest or current smoking observation	List	
PATIENT: Health related	Vaping status	IBD321	Latest or current vaping observation	List	
PATIENT: Health related	Comorbidities	IBD322	Comorbidities	Multi-select	
PATIENT: Health related	IBD involvement in death	IBD07	IBD involvement in death	List	
PATIENT: Health related	Family history IBD	IBD323	Family history IBD	List	
PATIENT: Health related	Family history Colorectal cancer	IBD324	Family history Colorectal cancer	List
